Valle de Uco Experience

Domaine Bousquet

Domaine Bousquet Winery is the legacy of a long and prestigious history, who carries the Bousquet lastname. A family with four generations of winemaking tradition, from the region of Carcassonne, in southern France. The winery is located in Tupungato, surrounded by vineyards at 1200 meters above sea level, at the foot of the Andes.

Why visiting this winery?

Because their goal is to produce high quality organic grapes that express the purity and intensity of varietal character and terroir where they come from.

Salentein

The land that today belongs to this enterprise is proof of innumerable feats: a region where the will and strength passed down the generations, from indigenous villages and Jesuit missions, including great people such as General San Martin. The San Pablo Vineyard is one of the properties with a rich history starting in the beginning of the 17th century. At more than 1,500 meters above sea level, in the heart of the vineyard, lies the ruins of the "Casa Grande." During the visit, you will taste three of Salentein's great wines, finishing in their Art Gallery, the only of its kind in all of Mendoza.

Why visiting this winery?

By the superb quality of its wines, achieved by the combination of its modern winemaking techniques with its old European roots, its old vineyards and the unbeatable conditions of their terroirs. For their art gallery, which makes this a unique winery, and its history, which undoubtedly has been able to leave its mark on the "Salentein" wines.

Visiting this winery will undoubtedly impact your Valle de Uco experience.

In this visit, you will get to know the vines and the methods of winemaking that make their wines so special.

Why visiting this winery?
