

Horseback riding through vineyards

"An innovative tour to experience a ride through vineyards, go wine tasting and lunch at a winery in Mendoza's natural mountain environment"

The activity starts at Winery Nieto Senetiner where the horses are waiting for us to start a ride of 1 and half between vineyards and mountain trails. We will take pictures and learn about the cultivation of vines. At the end of the tour we will find “empanadas” and a complete “asado” (barbeque) along with varietal wines from the cellar. We will finish our day with a tour to the winery and a wine tasting.

Horseback riding through vineyards

Nieto Senetiner

The history of Nieto Senetiner began around 1888, when Italian immigrants founded and planted the first vines in Vistalba, Luján de Cuyo, province of Mendoza. The winery developed in the hands of different families over the first few decades, who gave the winery the architectural form it maintains today.

In 1969 was acquired by Nieto Senetiner family who extended the facilities, beginning a new period of growth, and in 1998 became part of Molinos Río de la Plata Business Group. The winery has an established leadership position in all segments of still and sparkling wines, in medium and high ranges, where it participates. The winery is currently committed to the highest standards quality manufacturing, supported by continuous investment plans in new vineyards and processes.

Why visiting this winery?

Nieto Senetiner is an Argentine benchmark winery in the world, due to its high prestige and a strong family tradition.
